

Training Opportunity – Festival Security Program

The Security Folk Crew is an important part of our protection and wellness volunteer team. This highly-skilled, dedicated group provides support during incidents and ensures general crowd safety. They specialize in de-escalation, take care of small problems before they become big ones and foster a great Festival experience for all.

We care how we treat our folks, so we've developed our own security training. Not only will graduates of the Festival Security Program earn their provincial security guard license and many other credentials that can be used outside our Festival weekend, Security Folk also learn how to apply these skills within the Festival's welcoming, respectful and inclusive environment. This program, which is provided at no cost to participants, is an unparalleled opportunity for individuals to increase their skills and gain work experience at our Festival.

Who should apply?

Anyone that wants to make a difference and is committed to the goals of the Festival's Security Folk team. This is an excellent opportunity for people interested in working as a security guard at festivals and events in Manitoba, as well as other parts of the community. *Applicants who are already licensed security personnel will only be required to complete topics not included in the Manitoba Security Guard Training Program.*

Our Security Folk team is stronger for its diversity and welcomes individuals from all backgrounds and lived experiences.
